

Tired of wearing dentures?
Want teeth that don't come out? We've got the answer...

teeth in an hour!™

In just one hour you can have beautiful teeth that do not come out! Chew the same day. Minimal surgery, unlike with traditional implants. Reduced discomfort and swelling. No stitches. Minimal office visits. **Only one appointment for Implants and Teeth!** In most cases you only need to come in once before the actual treatment.

- Examination: First, we make a model or digital image of your mouth.
 - Placing the implants: At your next appointment the new implants and teeth can be placed right away.
- Improve your smile. Improve your chewing. Improve your life today!

**CALL US TODAY FOR
A FREE, NO OBLIGATION
CONSULTATION.**

Here's what Nancy in Cape Coral had to say...

"I just love them, but I 'm still getting used to the fact they don't come out!"

"What a relief to know if we had a terrible fire, all I'd have to do is grab my glasses and run, wouldn't have to run into the bathroom to grab my teeth."

"My dentures were so loose they'd come out during a meal in a restaurant...how embarrassing."

"You guys let me choose my own color. For the first time in my life I have the teeth I want. I'm so pretty."

—Nancy from Cape Coral
